EDUCATION

Princeton University Princeton, NJ

Ph.D., Sociology, specialization in Demography, June 2001

- NIH Training Grant Pre-Doctoral Fellowship
- 1998 Charles Westoff Prize in Demography

University of Virginia Charlottesville, VA

M.A., Sociology, January 1993

Adrian College Adrian, MI

B.A., *summa cum laude*, Sociology, Economics minor, December 1990

- Trustees Scholarship
- LeGrande Smith Scholarship
- Associate Trustee, Board of Trustees

EXPERIENCE

2009- **Georgetown University** Washington, DC
Present

Senior Research Associate

- Serve as the primary data manager, statistical programmer, and analyst for a large-scale biosocial survey (Study of the Environment and Biomarkers of Aging Study, SEBAS).
- Lead research studies investigating relationships among the social environment, biological markers, and health outcomes in the elderly population.
- Collaborated on numerous other publications, either as the co-author in charge of programming and analysis or as an advisory co-author (e.g., for consultation regarding research design and methods, interpretation of the results, and editing).

[Also worked as an independent contractor for Georgetown University for eight years prior to employment.]

1996- **Research Consulting** CA, NJ
Present

Provide technical and analytical assistance with social, demographic, and health research.

Examples of consulting engagements:

- Selected and summarized top scientific publications by grantees supported by the Population and Social Processes Branch of NIA (under subcontract with Rose Li & Associates).
- Designed statistical programs to implement standardized tabulations for all datasets being analyzed by various team members; constructed key indicators; and produced time-series estimates for the State of Longevity Project at Stanford University.
- Developed an innovative method for calculating deaths attributable to smoking in high-income countries (collaboration with researcher at University of Pennsylvania; the work was published by the National Academy of Sciences).
- Calculated patterns of teen sexual activity and contraceptive use based on a national survey and combined those results with population estimates in order to project the number of teen pregnancies averted due to contraceptive use for a study funded by the California Wellness Foundation (collaboration with researchers at the University of California, San Francisco).

EXPERIENCE (continued)

- 2002-2009 **University of California, Berkeley** Berkeley, CA
Research Demographer
- Coordinated activities of research teams in Berkeley, New York, and Germany working on the Human Mortality Database (HMD) project.
 - Managed day-to-day operations related to database development, design of the web interface (www.mortality.org), and subsequent expansion of a data series that now serves more than 30,000 users.
 - Collected, assessed, and documented the quality of mortality and population statistics for six countries.
 - Led research studies related to mortality using data from the HMD and similar sources.
- 1996-1997 **Division of Research, Kaiser Permanente** Oakland, CA
Senior Analyst
- Worked as a SAS programmer in cooperation with a seven member research team to build a diabetes registry that integrated data from multiple administrative sources.
 - Inspected survey results from more than 75,000 members with diabetes for logical inconsistencies.
 - Served as liaison to a key client.
- 1993-1995 **Child Trends, Inc.** Washington, DC
Research Analyst
- Collaborated with other researchers to design and implement statistical analyses for publications related to child and family well-being.
 - Provided programming and analytic support to lead investigators and supervised research assistants.

OTHER PROFESSIONAL ACTIVITIES

Member, Committee on Population, National Academy of Sciences, 2017-2023

Member, Panel on Understanding Divergent Trends in Longevity in High-Income Countries, National Academy of Sciences, 2008-2010

Member, National Institutes of Health, Scientific Review

- Special Emphasis Panel for the Social Science and Population Studies Study Section (R01), 2009
- Psychosocial Stress and Behavior: Integration of Behavioral and Physiological Processes (R01), 2011
- Development of Comprehensive and Conceptually-based Measures of Psychosocial Stress (R21), 2011
- Regional and International Differences in Health and Longevity at Older Ages (R01), 2011
- Research and Methods in Health Statistics (RFA SH16-001), National Center for Health Statistics (R03), 2016

OTHER PROFESSIONAL ACTIVITIES (continued)

Member, Population Association of America, 1997-Present

Member, International Outreach Committee, Population Association of America, 2013-2017

Expert reviewer for an NIA-sponsored Census publication, 2011

Referee for: *Annals of Behavioral Medicine, Aging and Mental Health, Archives of Gerontology & Geriatrics, Biodemography & Social Biology, Demography, Economics and Human Biology, European Journal of Population, Experimental Gerontology, International Journal of Epidemiology, Journal of Aging & Health, Journal of Gerontology: Social Sciences, Journal of Population Research, Lancet, Mechanisms of Ageing and Development, Neuropsychiatric Genetics, PNAS, Population, Population and Development Review, Population Studies, Preventive Medicine, Research on Aging, Social Science & Medicine, SSM Population Health*, and Ashgate Publishing.

COMPUTER SKILLS

Statistical programming: Stata, SAS, SPSS, R/S-plus, MLwiN, BUGS

Other software: Microsoft Office Suite, Google Suite, Zotero, Adobe Acrobat, HTML, QuickBooks

LANGUAGES

Spanish: basic proficiency

BOOK CHAPTERS

Cornman, J., **D.A. Glei**, N. Goldman, M. Weinstein. (2021). The Social Environment and Biomarkers of Aging Study (SEBAS). Pp. 5101-5112 in: *Encyclopedia of Gerontology and Population Aging, 2021 Edition*, edited by D. Gu and M.E. Dupre. Switzerland: Springer. doi: 10.1007/978-3-030-22009-9_983. [[Abstract](#)]

Gager, C.T., S.S. McLanahan, and **D.A. Glei**. (2002). Preparing for Parenting: Who's Ready, Who's Not? Chapter 3 in *Child Rearing in America: Challenges Facing Parents of Young Children*, edited by N. Halfon, K.T. McLearn, and M.A. Schuster. Cambridge: Cambridge University Press.

CHAPTERS IN REFEREED VOLUMES

Weinstein, M., **D.A. Glei**, N. Goldman. (2013). The Loyal Opposition: A Commentary on “Opportunities and Challenges in the Study of Biosocial Dynamics in Health Aging.” Ch. 11 in: L.J. Waite and T.J. Plewes (eds). *New Directions in the Sociology of Aging*. National Research Council. Panel on New Directions in Social Demography, Social Epidemiology, and the Sociology of Aging. Washington, DC: The National Academies Press. [[PDF](#)]
